

## LABORATORIO 1

3) Determine a partir de que valor se produce overflow en función de n con los distintos tipos de variables enteras que existen en C,C++ y Java

C/C++	
Tipo de Variable	Overflow(n)
signed short int	24
unsigned short int	25
signed int	47
unsigned int	48
signed long int	47
unsigned long int	48
signed long long int	93
unsigned long long int	94

JAVA	
Tipo de Variable	Overflow(n)
byte	12
short	24
int	47
long	93
